WALEED AHMAD

AI/ML Engineer | Agentic AI Developer (LangGraph & CrewAI)
0321-6635287 | waleed.ml.ds@gmail.com | Faisalabad, Pakistan
GitHub | LinkedIn | Portfolio

OBJECTIVE

Data Science student specializing in Agentic AI systems (CrewAI, LangGraph) and LLM applications, with hands-on experience building and deploying multi-agent systems on Groq-hosted LLMs. Seeking an LLM / Agentic AI Engineer internship (remote or on-site) to apply production-style multi-agent design, orchestration, and deployment skills.

EDUCATION

BS Data Science (BSDS) | Riphah International University, Faisalabad
2025 – Present (3rd Semester) | CGPA: 3.77

TECHNICAL SKILLS

- **Agentic AI & Orchestration:** CrewAI, LangGraph, Multi-Agent Orchestration, Prompt Engineering
- **LLMs & GenAI:** Groq API (Llama 3.3 70B, gpt-oss-120b), Serper.dev
- **Programming & Data:** Python, NumPy, Pandas, Matplotlib, Seaborn, SQL
- **ML/DL:** Scikit-learn, XGBoost, SMOTE
- **Deployment & Tools**: Streamlit, Google Colab, GitHub, Jupyter

FEATURED AI PROJECTS

Research Assistant Agent (Multi-Agent) | *CrewAI · Serper.dev*

- Built a 3-agent CrewAI system (Researcher, Summarizer, Citer) using a sequential pipeline with real-time web search (Serper.dev) and Groq's Llama 3.3 70B.
- Deployed as a public Streamlit app , resolving async event-loop and GPU compatibility issues in the Colab environment.

GitHub: https://github.com/waleed-agentic/research-assistant-agent

AI Interview Prep Agent Crew (Multi-Agent) | *CrewAI*

- Built a 5-agent CrewAI system that analyzes resumes and job descriptions, identifies skill gaps, and generates tailored interview preparation content.

GitHub: https://github.com/waleed-agentic/ai-interview-prep-agent-crew

Resume / Job-Matching Agent (Single-Agent) | *CrewAI*

- Developed an AI agent that parses resumes and compares them against job descriptions to score fit and highlight matching/missing skills.

GitHub: https://github.com/waleed-agentic/resume-job-matching-agent

AI Social Media Content Repurposer (Multi-Agent) | *CrewAI*

- Built a multi-agent system that repurposes blog content into platform-native social media posts, deployed as a live Streamlit app.

GitHub: https://github.com/waleed-agentic/ai-social-content-repurposer

Customer Support Multi-Agent System (Multi-Node) | *LangGraph*

- Built a multi-agent support system with conditional routing logic to direct queries to the correct specialized agent, deployed via Streamlit for live demo access.

GitHub: https://github.com/waleed-agentic/customer-support-multiagent-langgraph

AI Code Review Agent (Multi-Node) | *LangGraph · Streamlit*

- Built a 4-node LangGraph agent (Scanner, Flagger, Fixer, Rechecker) that auto-detects and iteratively fixes bugs, security, and performance issues in code, deployed as a Streamlit app with PDF upload.

GitHub: https://github.com/waleed-agentic/ai-code-review-agent

Personal Finance Agent (Multi-Node) | *LangGraph*

- Built a 3-node LangGraph agent (Categorize, Detect Pattern, Summarize) that categorizes expenses, flags overspending, and generates a spending-pattern summary, deployed as a Streamlit app with CSV upload and Plotly visualizations.

GitHub: https://github.com/waleed-agentic/ai-personal-finance-agent

Credit Card Fraud Detection | *XGBoost · SMOTE*

- Built a fraud detection model using XGBoost with SMOTE oversampling and threshold tuning to handle class imbalance.

GitHub: https://github.com/waleed-agentic/credit-card-fraud-detection-xgboost

CERTIFICATIONS

- Agentic AI with LangGraph, CrewAI, AutoGen and BeeAI — IBM
- Generative AI with Large Language Models — DeepLearning.AI & AWS
- Deep Learning Specialization — DeepLearning.AI (4 courses: NNs, RNNs, Transformers)
- Databases and SQL for Data Science with Python — IBM
- Introduction to Data Analytics — Simplilearn
- Python Libraries for Data Science — Simplilearn
- Self-Study: Hands-On ML with Scikit-Learn, Keras & TensorFlow (Ch. 1–9) — Aurélien Géron
